GEO. T. RENFRO

traveling salesman for this section. Your business will be appreciated.

FOR SALE—One-horse wagon and harness. Andy Elmore.

W. L. Guthrie was home from Harriman for the week-end.

Mrs. Eliza Lephew, aged 38 years, sister of Mrs. Wm. Dayton, died at the Dayton home last week of tuberculosis after an illness of several months. The remains were interred at Crab Orchard.

Miss Mary Black plans to leave Sunday for Johnson City to enter East Tennessee State Normal as a student for the next nine months.

G. W. Johnson and two daughters, Mrs. Hershall Johnson and Mrs. L. L. Gooch, arrived Sunday for a visit with his daughter, Mrs. Frank Potter and family. Mr. Johnson returned to his home in Putnam county Monday, but the ladies remained for a longer stay before returning home.

Pearson Hayes has been transferred from Rockwood to Crossville and is here as night operator for the Western Union.

A ball game was played on the home diamond Saturday between Ravenscroft and Crossville, which resulted in a score of 2 to 1 in favor of Ravenscroft.

Mr. and Mrs. H. R. Webb and grand daughter, Miss Rhoda Belle DeRossett returned last week from Chattanooga where they had passed several weeks with their daughter, Mrs. Belle Knowles.

Lieutenant E. H. Snodgrass arrived from Camp Bening, Columbus, Ga., Saturday on a furlough of 30 days. He drove through in his car.

FOR SALE—My residence in Crossville; also farm in suburbs, as a whole or will subdivide to suit purchaser. 8-7-tf C. E. Snodgrass

All the carpenters who were working on the M. E. Church, south, new school building two miles north of town, were discharged last week because the contractors claimed they did not turn off enough work for the price they were being paid. Later several of the men were taken back and the work is moving along as usual.

A few days ago we visited the farm formerly owned by W. E. Reed, but now owned by G. E. Harrison, to see what crops John Davis and Peter Harper had grown there this season. We saw splendid crops of all kinds, but especially soy beans for hay. That crop was especially fine and a large amount of hay was being harvested. It would seem to indicate that Mr. Reed underestimated the value of the farm when he sold it.

G. A. Taylor, wife and little son, James, arrived last week from Buhl, Idaho, where they have been living for a few years. They plan to locate permanently in Chattanooga where Mr. Taylor will engage in business. They left for Gadsden Sunday for a visit of a few days before Mr. Taylor goes to Chattanooga. Mrs. Taylor will likely remain here for a few weeks pending the establishment of Mr. Taylor's business. Their many friends over the county will be pleased to learn that Mrs. Taylor is in much better health than when they moved to the west.

Last week Superintendent J. S. Cline, Chairman Geo. P. Burnett and Trustee T. F. Brown went to Howard Springs and surveyed a sight for the public school grounds there. It comprises the sight of the present building and includes as a whole two acres of level ground that will make a splendid school ground. Ernest Bell generously donated the ground. There is a movement among the people of the Howard Springs neighborhood to lend substantial aid in providing a better building for school purposes than they now have. Such a course is deserving of the most hearty encouragement of the people generally and the officers in charge of such matters in particular.

UNCLE SAM'S BOOK STORE

The Largest in the World, But Is to Be Much Reduced; Waste Stopped

The largest book store in the world is going to have its stock considerable reduced by reason of the economy program which has been worked out for the government printing office by public printer, George H. Carter, and Budget Director Dawes.

This book store is owned by the government and consists wholly of government documents.

For some years this book store occupied a seven story building in Washington but recently has been given space in the government printing office. It contains the undistributed copies of all government publications. Many of them are of very expensive printing and binding and are upon technical subjects interesting to comparatively few people, yet thousands of copies have been printed and remain undistributed because there is no call for them.

In one year alone the government printing office produced over 222,000 publications which were never distributed but sold as waste paper.

The publication of useless documents as well as the excess publication of some documents which may be of value to certain classes of people has long since become a public scandal but there seemed to be no way to correct the matter until the enactment of the present budget law. Under its provisions, ample power is given officials to stop the publication of non-essentials and to stop the duplication of printed matter occasioned by two or three departments issuing publications on the same subject matter.

CLARKRANGE

A. B. Bradford was visiting a few days here this week.

Carter Woody is building an addition to the dwelling house of J. M. Peters.

Forest Little left Saturday night for Murfreesboro, where he will enter school.

W. P. Little made a business trip to Knoxville this week.

Five rooms for rent over the Chronicle office. Newly painted last spring, electric lights. Apply at the Chronicle office.

Mr. and Mrs. S. C. Cline drove to Harriman in their car Thursday returning the same day. They were accompanied by Mrs. S. C. Bishop, Mrs. E. J. Ducey and little son.

Mrs. S. A. Potter and little daughter left Sunday for her home at Yorktown, Va., after a visit here with Mr. and Mrs. S. W. Potter and family of some weeks.

Estrayed—One roan mare 15½ hands high, 3 years-old-past, split in one ear, scar on hind leg, both hind feet white. Will pay reward for information leading to recovery. R. C. Hall, Genesis. 8-31-3t.

Through oversight last week in mentioning the teaching force of the High school, we omitted the name of Miss Ethel Walker. Miss Sallie Rogers, of Clifty, is the music teacher for this year. She will also do some work in the High school.

John Ettein returned Saturday from Rer Boiling Springs, where he had been for a few weeks for his health. He is now greatly relieved of rheumatism in his legs and feet and walks about with comparative ease.

William Newton, of Harriman, was the week-end guest of friends here.

Walter Almonrode and Lester Crawford, both of Overton county, were the first of the week with the view to purchasing land for farming in this county.

Remember to see me with your butter, eggs, vegetables and all kinds of barter before you sell; I pay cash for everything. W. A. Rector. 9-14-tf

Dr. F. J. Upham and wife and Mrs. Mattie Taylor left Sunday for Gadsden, Alabama, to visit Mr. and Mrs. J. T. Weaver. Mrs. Taylor will probably remain there for several months, but Dr. Upham and wife are expected home the last of this week.

The Heffner-Vinson tent show, that was here last spring is here again to remain throughout this week. When here before they were courteous and fair in all their conduct and if there was anything of a vulgar or rowdy nature connected with the show, we never learned of it. In view of the experience the public has had here and clippings shown us from other papers, we see no reason why our people should not patronize the Heffner-Vinson show as freely as they choose without feeling they have in any way contributed to an unworthy amusement. Tonight they will give, "Tempest and Sunshine." Thursday, "Girl of the Golden West." Friday night, "Trail of the Lonesome Pine." Saturday night, "Bringing up Father" and other humorous things will be rendered. If you feel like buying a little amusement, you need not feel ashamed to be seen at this show.

One of the most interesting and remarkable sights we have seen this year on any farm is on the farm of C. A. Jackson near Pomona. There may be seen a field of corn of 12 to 15 acres growing in the woods. Many trees are in the full leaf while many others are still holding their dead leaves that died after leaving out this year. The corn will average 25 to 30 bushels in spite of the unfavorable conditions. Mr. Jackson was unable to get the grubbing done and the trees removed in time for planting so he planted the corn in the woods, after discing the ground and running a Gee Whiz cultivator over it. The sight is worth going miles to see. Yet in the face of such conditions some people are doubtful if farming can be made to pay on this fine, level land of the Plateau. "Oh, ye of little faith."
